Time for more cosiness

Care beds in hotel design - Flexible use

Many of our elderly fellow human beings find it difficult to leave their homes, because health and social care can no longer be guaranteed. This makes it even more challenging for nursing homes to offer their residents a new home.

With our new upholstered beds made of high-quality materials from renowned partners, we offer an excellent surface material, which opens up an enormous variety of applications in the interior design of high-quality living and facility areas, especially in the medical sector. Perfectly coordinated collections and new products upholstery solutions, furniture fronts and floor panels of all kinds merge to form a single unit and provide a plus in of homeliness.

We are setting new standards and supporting you with flexible product solutions
– Convince yourself on the following pages.

Dignified care in an ambience worth living in.

Inspired by an idyllic meadow landscape

Gentle hills, tall grass, colourful flowers and fragrant herbs – our **Meadow** living concept was inspired by an idyllic meadow landscape.

You can walk through the green expanse on field paths, with your gaze fixed on the distant horizon. Agriculturally used areas with cows and sheep alternate with small wooded areas and offer relaxation and recreation.

Nursing bed sentida 5 HD-1 | Upholstery: smooth, 35 mm

Décor: Italian Oak

Fabric: Meadow

Wall paint

Nursing bed: sentida 5 HD-3 | Upholstery: smooth, 35 mm

Inspired by a day at the lake

Pristine forests, rolling hills and crystal-clear lakes – our living concept **Lakeside** was inspired by a lake landscape. Unspoilt lakes invite you to enjoy nature and linger. In the evening you can watch as the sun bathes the glassy surface of the water into a warm red before it slowly, very slowly disappears behind the treetops.

Nursing bed: sentida 5 HD-4 | Upholstery: Buttons, 35 mm

Décor: Norway maple

Imitation leather: Smoke

Wall paint

Decorative colours

Living concept **Mountains**

Inspired by a mountain hike

Mountaineering, climbing or hiking in the beautiful nature, taking the cable car to the summit and enjoying the great view – our **Mountains** living concept was inspired by an alpine mountain landscape.

Whoever looks down from a mountain feels very small in the face of overwhelming nature. A break in a rustic alpine hut rounds off the experience.

Inspired by a Frisian village

In northern Germany, Flanders and the Netherlands, there are picturesque little villages with characteristic brick houses. These were the inspiration for our **Village** living concept. In the countryside, the world is still all right, they say. Holidaymakers and residents alike enjoy the mix of tranquillity, country life and village idyll.

Nursing bed: sentida 5 HD-2 | Upholstery: square quilted, 35 mm

Décor: Lindberg oak

Imitation leather: Cherry

Wall paint

Further living concepts in hotel design

Mare - Inspired by a walk on the beach

The taste of salt on your lips, wind in your hair and the warm rays of the sun on your skin. A day at the beach provides peace and balance. Close your eyes and listen to the waves, breathe in the fresh sea breeze and you will quickly feel a sense of a feeling of holiday and well-being.

Country - Inspired by the English country house style

In the hectic pace of everyday life, many wish for a life in the country. Colourful flower meadows, roses, shady trees and babbling brooks provide fresh air and relaxation from everyday life. But very few people own a country house. For a little rural flair, the right colours and accessories are often all that's needed.

Urban - Inspired by a vibrant city

People are again looking for the spaces in the city that are associated with urbanity as a lifestyle, representing diversity and freedom, where everyone can meet everyone else. A city that is liveable because it belongs to everyone and everyone has access to its public spaces.

Forest - Inspired by a walk in the forest

Few things are as relaxing as a walk in the forest. The fresh air and the brown tones refresh, invigorate and clear our minds. Japanese researchers have found that forest walks lower blood pressure and heart rate. In addition, the adrenaline level is lower than after a walk in the city.

Cosy look without visible side rails –

Depending on the resident´s protection situation, benefit from an even more homely design without visible side guards.

In addition to permanently mounted side elements, SafeFree® Flex offers individual and future-oriented as much freedom as possible and as much protection as necessary. At the same time SafeFree® Flex retains the homely design character that distinguishes all nursing beds made by wissner-bosserhoff.

0

No protection needed

Comfort bed, without side rails

1|2

Soft protection

Mobilisation aid only head side elements

3

¾-Protection

Wall protection with foot-side exit

4

Full protection
for mattresses up to 18 cm

4 fully adjustable side rails

Thanks to SafeFree®-Flex

Complete protection

- Secure fastening of the elements
- Prevents unintentional loosening or removal of the side elements

Seamless security

- Gap between side bolster and lying surface
- Protection against accidents caused by entrapment

Flexible mobilisation

- Optimal length and individually adjustable height of the head side rails
- Perfect hip protection during sleeping as well as comfortable and ergonomic mobilisation of the resident

Free

Less freedom depriving measures

- Deliberate „omission“ of side rails
- Investment security for the operator, Legal certainty regarding Fdm* for the care staff

Flex

More efficiency

Tool-free adjustment of the side elements
As flexible as the attachment of the side elements, the budget can be used just as flexibly, because you only pay for the elements that your residents actually need.

No need for a technician
Quick conversion to changing situations of the residents – with gap closure, without (1) and with handrail (2) or fully adjustable side rails (3)

SafeSense® 3 | Make your nursing beds intelligent

The digital care assistant - optionally available

- + Continuous **real-time resident monitoring**
- + Contactless **Data acquisition & visualisation**
- + Differentiated **call management** for fast **prioritisation**
- + **Resident presence** in bed: **YES or NO**

- 
- + **Connectivity Box 1.0**
Electronic monitoring unit with interface to the SafeSense® software and to the call system, as well as differential pressure sensor for detection of the transmitted signals

Softcover

Inexpensive and flexible

All the fabric and imitation leather decors shown are also available as covers, which you can add simply and without tools on the head and foot sections* of your nursing beds. The properties of the fabrics and the homely look remain unchanged. This provides you with a cost-effective alternative to hotel design.

Properties of our soft covers

- Moisture and dirt resistant
- Breathable
- Water repellent
- Blood and urine resistant
- Disinfectant resistant
- Extremely hard-wearing
- Environmentally friendly and free of harmful substances
- Durable
- Flame retardant (according to the ignition criteria according to DIN EN 1021 part 1 + 2 and BS 5852 Crib 5*)

Imitation leather

The special feel, special properties and expressive embossing give high-quality upholstery materials their individual character. In addition to unusual designs, surfaces are characterised by high ease of care. Imitation leather made of PVC plastic scores points above all for its longevity and thus stands for genuine quality. More information is available on request.

Fabrics

These upholstery fabrics are unrivalled in their cleanliness and care. The patented innovative system leaves no chance for bacteria, dirt and moisture. Beautiful designs on first-class fabric qualities offer extensive combination possibilities between upholstery and decorative fabrics. Flame retardant branded yarns made of Polyester FR or Trevira CS are used here. More information is available on request.

Wood decors*

Design head/foot sections | Upholstery

More than 5,000 variants

Even in the standard version we offer you a wide range of wood, fabric and leatherette decors as well as different processing options. So you can definitely find the right living concepts for your residents. Let us advise you.

* Colours for side panels, SafeFree® handrails and chassis cover sentida 5/ 5-xl. Some decors available at an extra charge. | We recommend using an original sample for the final colour selection. All illustrations in birch imitation leather. For further colours see page 18
